AES Apprentice – Cybersecurity (REMOTE)
Job Description

About the Team

The world isn't standing still, and neither is Allstate. We're moving quickly, looking across our businesses and brands and taking bold steps to better serve customers' evolving needs. That's why now is an exciting time to join our team. You'll have opportunities to take risks, challenge the status quo and shape the future for the greater good. You'll do all this in an environment of excellence and the highest ethical standards – a place where values such as integrity, inclusive diversity and accountability are paramount. We empower every employee to lead, drive change and give back where they work and live. Our people are our greatest strength, and we work as one team in service of our customers and communities.

Everything we do at Allstate is driven by a shared purpose: to protect people from life's uncertainties so they can realize their hopes and dreams. For more than 89 years we've thrived by staying a step ahead of whatever's coming next – to give customers peace of mind no matter what changes they face. We acted with conviction to advocate for seat belts, air bags and graduated driving laws. We help give survivors of domestic violence a voice through financial empowerment. We've been an industry leader in pricing sophistication, telematics, digital photo claims and, more recently, device and identity protection. We are the Good Hands. We don't follow the trends. We set them.

About the Role
Want to work in your field and train on the job? Join our 12–24-month apprentice program! You will earn and learn on the job, receive career guidance and mentorship, all while attending school. Allstate will also provide tuition assistance and hands-on training in the field of cybersecurity

The program will start August 2023.

Think that working in the insurance field can't be exciting, rewarding and challenging? Think again. You'll help us reinvent protection and retirement to improve customers' lives. Allstate will help you make an impact with our training and mentoring offerings. Here, you'll have the opportunity to expand and apply your skills in ways you never thought possible. And you'll have fun doing it! Join a company of individuals with hopes, plans and passions, all using and developing our talents for good, at work and in life.
