

## Nexamp STEM Fellowship

A hands-on experience connecting Illinois students with Nexamp teams to explore clean energy careers.

### The Fellowship experience

Over the course of four to six weeks, fellows gain exposure to multiple aspects of project delivery and workforce operations while supporting Nexamp's Microsoft funded community solar projects across Illinois. Participants work alongside project management, construction, grid integration, and policy teams to enhance project efficiency and strengthen community impact.

### Program overview

- Report to Nexamp's downtown Chicago office for a minimum of 15 hours per week. Monday – Thursday during normal business hours (8am – 5pm).
- Contribute to documentation, scheduling, and workflow tracking of active Microsoft solar projects

### Benefits

- Paid clean energy experience
- Strengthen skills applicable to STEM careers
- Professional development and mentorship from industry experts
- \$20 per hour compensation

### Eligibility and key dates

- Open to current students of City Colleges of Chicago in good standing or alumni of Nexamp City Colleges Fellowship
- **Applications due Tuesday, March 31st**
- Fellowship begins Tuesday, May 26<sup>th</sup>
- Equity Eligible Persons are strongly encouraged to apply. [Learn more here.](#)
